PROFESSIONAL SUMMARY

Full Stack Developer with hands-on experience in building scalable web applications using the MERN stack (MongoDB, Express.js, React.js, Node.js). Strong foundation in RESTful APIs, authentication, database design, and state management using Redux. Experienced in developing responsive user interfaces, backend services, and integrating APIs. Proficient in Data Structures and Algorithms with 300+ coding problems solved across platforms.

TECHNICAL SKILLS

- **Programming Languages:** JavaScript, Python, C, C++
- **Frontend Technologies:** HTML, CSS, React.js, Redux, Tailwind CSS, Bootstrap
- **Backend Technologies:** Node.js, Express.js, RESTful APIs
- **Databases:** MongoDB, MySQL
- **AI & Automation:** n8n, LLM Integration, API Integrations, Agentic AI Workflows
- **Developer Tools:** Git, GitHub, Docker, VS Code, PyCharm

EXPERIENCE

Full Stack Developer (Project-Based)

2023 – 2024

Self-Directed Projects

- Designed and developed full-stack web applications using React.js, Node.js, Express.js, MongoDB, and MySQL.
- Built RESTful APIs supporting CRUD operations, authentication, authorization, and role-based access.
- Implemented responsive user interfaces with React.js and Redux for efficient state management.
- Optimized database queries and backend logic to improve application performance.
- Used Git and GitHub for version control and project collaboration.

PROJECTS

QRush – Gamified Quiz Platform

Technologies: React.js, Redux, Node.js, Express.js, MySQL

- Developed a full-stack gamified quiz platform featuring daily challenges, leaderboards, and user authentication.
- Built RESTful APIs for quiz management, scoring, analytics, and user progress tracking.
- Implemented responsive frontend using React.js, Redux, and Tailwind CSS.
- Improved user engagement through badges, categories, and personalized quiz flows.

Airbnb Clone

Technologies: Node.js, Express.js, MongoDB, EJS

- Built a full-stack Airbnb-style application following MVC architecture.
- Implemented secure user authentication using bcrypt and session management.

- Developed property listings, image uploads, booking, and reservation features.

Myntra Clone – E-commerce Application

Technologies: React.js, Redux, Node.js, Express.js

- Developed a responsive e-commerce frontend with product listing, cart, and checkout functionality.
- Used Redux for global state management and API-driven data flow.
- Built reusable UI components and REST-based backend services.

EDUCATION

College of Engineering Roorkee

Bachelor of Technology in Information Technology

2020 – 2024

CGPA: 7.25

ACHIEVEMENTS

- Solved 220+ Data Structures and Algorithms problems on LeetCode.
- Solved 120+ problems on Coding Ninjas.
